Experiment 8: Public Land Mobile Network (PLMN)

Aim: - To create an infographic in Figma explaining the structure and main components of a Public Land Mobile Network (PLMN).

Procedure

1. Open Figma and create a new design file.
2. Add a heading named Public Land Mobile Network (PLMN).
3. Create five rounded rectangles for Mobile Station, BTS, BSC, MSC, and Other Networks.
4. Arrange the rectangles vertically in the correct order.
5. Add a suitable icon and a short description inside each rectangle.
6. Connect all the components using downward arrows.
7. Apply different light background colours to distinguish the components.
8. Align the boxes and arrows neatly.
9. Preview the final infographic and check that the labels are readable.

Output: -

https://www.figma.com/design/DsFeY2DSjvR6A4O7T6uyxf/Experiment-1?node-id=0-1&p=f&t=qjoYbuyhtjz6fktq-0

Result: - Thus, a dashboard prototype displaying cellular system performance criteria was created successfully using Figma. The dashboard represents signal strength, throughput, latency, active users, and the performance of different cells.
